

## Press Release

### New Halvarssons BOFALLET Durable and Stretchy Rain Jacket and Pant

- **Taped seams for guaranteed waterproofness**
- **Reflective prints for higher visibility**
- **Fit over any motorcycle Jacket and Pant**

(Mustasaari, Finland, April 10<sup>th</sup> 2024) The traditional Swedish motorcycle garment brand Halvarssons presents its latest innovation for rainy and wet conditions: the durable and stretchy rain Jacket and Pant BOFALLET. Crafted to withstand harsh weather conditions, this rain Jacket and Pant combines durability and stretchiness for optimal comfort and performance on the road.

Constructed with Waterproof Stretch PE, the Jacket and Pant feature stretch polyester fabric that allows riders to move freely while maintaining protection against the elements. Taped seams ensure maximum waterproofing, keeping riders dry even in heavy rain.

For enhanced visibility and safety, the Jacket is designed with hi-vis yellow shoulders. A mesh lining provides breathability, ensuring comfort during extended rides. Adjustable sleeve ends and hem allow riders to customize the fit, while reflective print increases visibility in low-light conditions.

The jacket and Pant are designed to fit over any motorcycle garments seamlessly, providing an extra layer of protection without compromising style or functionality. BOFALLET Jacket is available in sizes XS-3XL and is priced at 119.00€. The BOFALLET Pant comes in XS-2XL at retail price of 89 EUR. Detailed information and store locator can be found under [www.halvarssonsmc.com](http://www.halvarssonsmc.com).
