

Halvarssons Expands Collection with Three New Gloves for Various Uses

- **FLON with outstanding ventilation for warm summer days**
- **TIHOLA, waterproof and breathable**
- **DUVED, the three-fingered glove for the coldest conditions**

(Mustasaari, Finland, April 10th, 2024) The Swedish heritage brand Halvarssons is not only known for its high-quality motorcycle jackets and pants, but for its wide and diverse range of motorcycle gloves tailored for many different uses. Just in 2024 Halvarssons expands the gloves collection by another three new models: FLON, TIHOLA, and DUVED. These gloves are designed to deliver exceptional performance, protection, and comfort for riders in diverse weather conditions.

Halvarssons FLON: The Essential Summer Glove

FLON, crafted from durable goat leather, features strategically placed mesh panels for optimal airflow, keeping hands cool and comfortable during hot summer rides. Equipped with hard knuckle protectors and stylish yellow accents, FLON not only offers protection but also adds a touch of style to the rider's ensemble.

Developed with state-of-the-art materials like SuperFabric, HI-ART for five times stronger abrasion resistance, and the innovative NUDUD technology, which allows for more precise touchscreen operation, FLON ensures ultimate durability and safety. With these features, FLON becomes an essential companion on warm summer days.

Halvarssons TIHOLA and DUVED: Conquer the Cold

The winters in Scandinavia are long and cold. Therefore, the Swedish designers know what it takes for a cold-weather glove: The new models TIHOLA and DUVED are the perfect waterproof cold weather gloves. Crafted from a blend of leather and textiles, these gloves are designed to keep hands warm and dry in harsh weather conditions.

Both TIHOLA and DUVED feature 180g Innoborne insulation (with 40g in the palm) to provide exceptional warmth without compromising dexterity. Additionally, HI-ART, NUDUD, and the high-quality membrane technology DRYWAY+ enhance durability, waterproofing, and breathability, ensuring maximum comfort and protection for riders.

DUVED stands out as a three-fingered glove, providing extra warmth for riders facing extreme cold conditions. With Skin Fit XTR technology ensuring a perfect fit, TIHOLA and DUVED are the ultimate companions for cold weather rides, offering unbeatable warmth and performance.

The recommended retail prices are: FLON 99 EUR, TIHOLA 119 EUR, DUVED 119 EUR. Detailed information and store locator can be found under www.halvarssonsmc.com.
